Summer Camp Schedule

June 5th - August 4th

Week 1: Disney Days! (June 5 – June 9)

No matter how young or how old, everyone loves Disney! Children will study the autobiography of Walt Disney himself, and how he was an American entrepreneur, animator, voice actor, and film producer. They will create Disney-inspired art projects, share their favorite Disney books and movies and sing songs from Disney soundtracks.

Week 2: Fun & Crafts with Pompoms (June 12 – June 16)

Students will create a variety of pompom projects using their creativity and imaginations from making pompom animals to anything they can imagine.

Week 3: Hero Week! (June 19 – June 23)

“What do I want to be when I grow up?” Children will learn about some of the community’s local heroes and hopefully be inspired to work towards becoming one themselves. It is important for children to always have someone to look up to, someone to think of as a hero (other than the obvious: their parents!) Children will find out what it takes to be a police officer, fireman, doctor, and more!

Week 4: Creations from the Kitchen (June 26 – June 30)

The children will learn a variety of cooking skills to use for a lifetime. They will become familiar with kitchen utensils, measuring, following recipes, nutrition, and kitchen safety. Then we will put our skills to the test by creating healthy recipes.

Week 5: Stars and Stripes! (July 3 – July 7)

It’s the week of the Fourth of July, when the United States gained their independence. Children will learn about American History, the significance of Independence Day, and get to celebrate this momentous day of red, white, and blue. (Please bring in a white T-shirt on Monday and there will not be camp on Tuesday)

Week 6: Music Makers! (July 10 – July 14)

Get ready to sing some tunes and make some noise! Children naturally love music, and this camp will give them the opportunity to create their own musical instruments, explore concepts of pitch, sound, and play musical games, learn about various types of music, and have a rockin’ good time!

Week 7: Space Station! (July 17 – July 21)

3..2..1..BLAST OFF! Our Earth is but a speck in the vastness that is our universe. Children will become astronauts exploring outer space! Campers will do experiments, activities and crafts to learn not only about our planet Earth, but also about our sun, our moon, the stars, planets of the solar system, and so much more!

Week 8: Fun and Fitness! (July 24 – July 28)

In today’s technology-driven state, it is crucial for children to know the importance of being fit and keeping their bodies healthy. During this camp, children will have the opportunity to exercise and have fun doing it! They will also learn how to keep their bodies physically fit by avoiding unhealthy options, choosing nutritious food, and keeping themselves hydrated, and well-rested.

Week 9: Water, Water, Water! (July 31 – August 4)

The last week of Camp at MSO will end with a SPLASH! This week the children will be able to relax and enjoy the sun along with lots of water fun.
